	remains to the next churchwardens	4	18

October 21st 1750 it is this day resolved upon by the majority of the parishioners of the Parish of Butleigh and Wootton met at a publick vestry for that purpose; that the present churchwardens of the said Parish shall and may by the consent and approbation of the said parishioners cause to be rebuilt the whole roof of the church and tower of the said parish at or after Lady Day next and whereas the said church is now covered partly with lead the repairs of which lead has been found vastly expensive. It is therefore also resolved upon by the said parishioners in vestry assembled that the said churchwardens shall and may sell the said lead to the best advantage and buy instead thereof as much of the best Ham Hill tyle as will cover the said church and the tower to be all covered with lead which is now tyled and whereas also it is found too expensive and burthensome to

rebuild the said roofs with oak timber by reason of its great scarcity and dearness in this neighbourhood. It is also resolved upon by the said parishioners that the churchwardens shall cause the said roofs to be all rebuilt of the best elm timber that they can buy and procure in the said parish, this order of vestry is agreed upon and signed by us in the parish church of Butly on the day aforesaid.

S. Hood vic., J. Periam, John Rocke, Henry Talbot, John Look, Thos. Periam

1750

remain in stock	6	14	11 ^{1/2}

Memorandum Nov 30 1763 This is to inform all future churchwardens that no disbursements ought to be insertd or plac'd to their accounts but such only as are expended within the walls of the churchyard: and that all repairs of the Parish bridges & causways without these walls are by Law to be paid by the overseers of the poor: see Barn's Justice, & Deac Rideaux's Duty of churchwardens.

Also be it observ'd to transcribe the particular disbursments of every year, after the rate as usual in this book.

J. Periam, John Rocke Churchwardens

N.B. The churchwardens are to order all rubbish etc to be remov'd every year out of churchyards & to suffer no drains or gutters to be made near the graveside & may by law cut down & root up all trees growing near the burying places, as they obstruct the digging of ground etc.

See all the three last pages of this book for several other good rules & entrys relating to this Parish, & the pages before the year 1740 at a vestry & also the year 1750.

At a vestry held Sunday August 12 1764 all the Parish papers viz indentures, certificates, orders or removal etc, bonds of bastardy, & the deeds of the three poor houses viz (?) late **John Gill** in Wootton & late **Humphry Vearing's & H. Colmers** in Butleigh were all put into the church chest & locked with 3 locks of which the Rev'd **Mr. Hood & Mr. Periam & Mr. Rocke** churchwardens had each a key.

1762-63

Parish of Butleigh & Wootton. The particular accounts & disbursments of **John Brooks & John Looke** churchwardens of the said parish from May 1762 to August 1763

A scheme to be always observed in the repairing of the highway proposed by **Mr. Periam** December 26th 1750

The great neglect in the usual performances of the 6 days work to repair the roads of this parish, by which they are become inexcusably bad, occasion'd my laying down the following scheme, which if well pursued may in a few years make our roads the best in the county.

The first thing to be fix'd upon is the times of giving notices in the church which I desire may be always for the future for the first 4 days between Easter Day & Whitsunday as soon as the weather will permit and the last 2 days as soon after harvest is over as possible.

When such notice is given, it is necessary to acquaint all persons where they are to meet, and I would have all these labourers meet together in the morning at the quarry and after all the plows go off with their first loads the surveyor then attending to take 4 or 6 more as he pleases to throw the stones abroad each day as they are carried. By this means all the parish will be kept in two parties only one at the loading place the other at the road which is mending and no one can be conceal'd who is a defaulter by the old excuse that he was order'd at another place etc.

The next great regulation to attend to chiefly is what roads to be first mended etc. which I always advise in this manner; let it be let it be mentioned in the notice for the 2 first days every year to repair the highways only leading from Butleigh & Wootton to the several great market towns they frequent. For the two days at the 2nd time of notice let it be mention'd what private or parish ways or lanes are worst & those to be next done at the surveyor's discretion; but always remembering to keep the men together & not let them separate as usual, & do nothing at all.

For the two last days in autumn let the surveyors take care to mend all those roads that appear worst against the winter & the footpaths in the parish leading to the church & from Butleigh to Wootton. Let as many small hedges be prepar'd as are wanted; to be kept by the surveyors and all defaulters without favour or exception punish'd.

And to encourage this method I vote for 2 gallons of cyder to be given at Wootton & 4 gallons at Butleigh each evening they work to poor labourers only as do their duty the eight hours.

Memorandum - To warn out every person who is not a parishioner every quarter day & let no labourers be employed who are intruders.

see other good rules before pages of the years 1740, 1750, 1763:4:

Easter Monday 1752

Notice is hereby given by the vicar churchwardens & overseers of the Parish of Butleigh to all persons presuming to sell Ale or any other liquour without licence in the said parish that the penalties by the 3d of Charles 1st and other subsequent acts will be levied upon them if they continue so to do after this notice. For the first offence they forfeit 20s for the second to be committed to the House of Correction for a month for the third offence till discharged by order of sessions.

Notice is also given to all those selling any liquours whatsoever with licence that they forbear to renew their licences after Michaelmas so the poor labourers of this parish are in danger of utter ruin to them and their families by this means only which dayly increases idleness and vice & destroys all the industry & virtue which are the only support of the poor.

J. Periam, J. Rocke, S. Hood vicar

Memorandum The churchwardens had the power formerly to let out seats in the church by the year or for life, as appears in the accounts in 1688 and also rec'd 6s 8d for every grave dug in the church in 1682 and after tho' long since neglected.

The fourth bell was new cast in the year 1695 as appears in the accounts at the expense of £37 6s 10d.

In the year 1723 & 25 the church rates were enter'd in this book which should be done very regular every year.

In the year 1713 the clark's salary was ten shillings a year which is risen too extravagant since to 50 shillings a year according to the visitation expenses ought not to exceed ten shillings a year. In the year 1728 the bell cage was new built see the rates etc. In the year 1740 an order of vestry is made to regulate several expenses and impositions in the church accounts.

Lists of commoners in 1672 and 1779
